M5 - Reflective Essay

Reflect on your personal experiences and perspectives related to your Material and Digital Self. Use the questions below as a guide in developing a coherent, reflective essay. Integrate your responses into a unified, narrative essay, providing detailed explanations and examples.

1. Material Self:

What material possessions do you value the most? Choose one from each category and explain why it holds meaning for you:

A body part you consider essential to your identity or self-expression

A piece of clothing that represents who you are or how you want to be perceived

A person you consider part of your material world (e.g., family, significant others)

Other possessions (e.g., gadgets, pets, heirlooms, etc.)

2. Digital Self:

Reflect on your online persona:

How would you describe yourself on social media?

Do your social media profiles authentically represent who you are in real life? Why or why not?

In what ways do you curate or filter your identity online?

3. Responsible Digital Citizenship:

What challenges or pressures do you experience when interacting online (e.g., comparison, validation, cancel culture)?

What guiding principle or personal rule do you follow when engaging with others on social media?

How can you personally improve your online presence to align better with your true self?
